

16th March 2016

Dear Parent / Carer

School Health Changes

There have recently been significant changes to the way school health service operates within Manchester.

The school now has an allocated time for our designated school nurse, Vanessa Pinchbeck, to visit. This will be every Wednesday morning for 2 hours. We would like to use this time to discuss the children who have any medical or health concerns which may need addressing, plus children who are referred by the teacher and/or parent via a discussion with the class teacher.

We hope to make some of the allocated time available for parent drop-ins. These will be short appointments by prior arrangement through the school office or myself.

If you need any further information, please contact the school office.

King Regards

Debbie Carter
