

21<sup>st</sup> September 2016

Dear Parents/Carers

## Workshop: 'It Came From Outer Space'

As part of this term's 'Life on Mars' topic we have an exciting opportunity for your child to take part in a series of amazing workshops. These are designed to enable the children to learn about space related artefacts such as meteorites, astronaut food, and space shuttle and rocket construction materials.

The workshops will take place in school on the morning of **Monday 17<sup>th</sup> October**. The workshop will be provided by Starchaser, a company providing enrichment and educational fun learning opportunities in schools in a safe way.

The children will be building and flying their own rockets, and will have the experience of seeing a real rocket, which will be on display in the school playground. To conclude the workshop, the children will have the thrilling experience of seeing a launch of a one metre Starchaser rocket, which will fly hundreds of metres into the air and return by parachute.

A contribution of **£5.50** to help cover the cost of the workshop would be greatly appreciated. If we do not receive sufficient contributions, the workshop may have to be cancelled. If your child is eligible for Pupil Premium, you are entitled to the workshop being funded by school.

If you would like your child to take part in this workshop, please complete the reply slip below and send in your payments to the office by **Wednesday 12<sup>th</sup> October**.

Kind Regards,

Satnam Singh, Leanne Eldridge, Sharon Griffin and Kelly Grant  
Year 3 Teachers
