

5<sup>th</sup> September 2016

Dear Parents/Carers,

## Asthma Plan

We are currently conducting a review of all asthmatic children in school, and our records indicate that your child has asthma.

We would be grateful if you could complete the attached asthma plan with as much information as possible so we can treat your child appropriately if he or she has an attack. Once you have completed the plan please hand it in to the school office.

If your child requires an inhaler please ensure that the medicine is in date, and that you have given it to your child's new class teacher.

Kind regards,

Lisa Cameron

Family & Children Support Coordinator
