

Science Workshop
Oswald Road Primary School

Wednesday 5th July
1.15pm-3.00pm

Come and have a go at creating experiments and discover what your children are learning at school.

You don't need any knowledge about science to take part!

Learn about chemical reactions, create non Newtonian fluids, make a volcano model, and learn about pressure by creating a pop bottle diver. The workshop is aimed at parents of children in Key Stage 2 and above.
