

1ST CLASS @ NUMBER 2

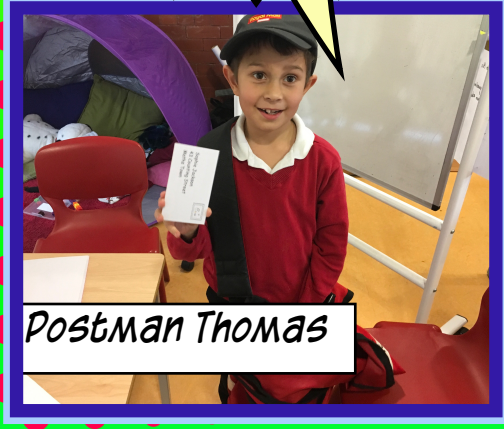

Year
3

Pupil Voice

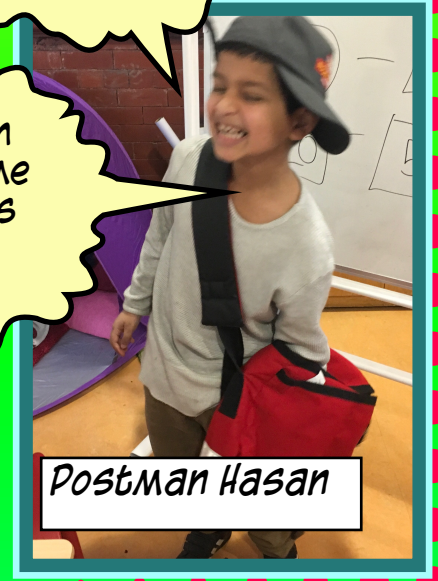

I liked playing race to 200. I had to roll 2 dice and make the largest number I could. The largest number I rolled was the ten and the smallest was the ones/ unit. I won!

I enjoyed playing football to help with my number bonds. We had to kick a ball at the numbers that added together to make 10.

Multiplication bingo helped me with my times tables.

Postman Thomas

Postman Hasan

My favourite work was making my own number cards. I got to decorate them too.

I loved to dress up as a post lady. We had to find out how many of postman Fred's letters blew away in the wind. (missing number problems).

My favourite game was 100 square twister.

I really liked the quiz we did before we started the sessions. It had lots of fun questions.

I loved the party so much. It was my best day.
