

# 1ST CLASS@NUMBER 2

Year  
4  
Pupil Voice

I loved race to 100. You had to make the largest number from rolling 2 dice.

I have learnt about greater than and less than.

I liked it when we put a red panda on our heads and counted in 3s.

I liked playing race to 200. It was fun!

I liked using coins and crayons to do coin rubbings. We used 2p and 10p coins.

I liked it when we made our own number line in the 3 times table using paint and giant paper.

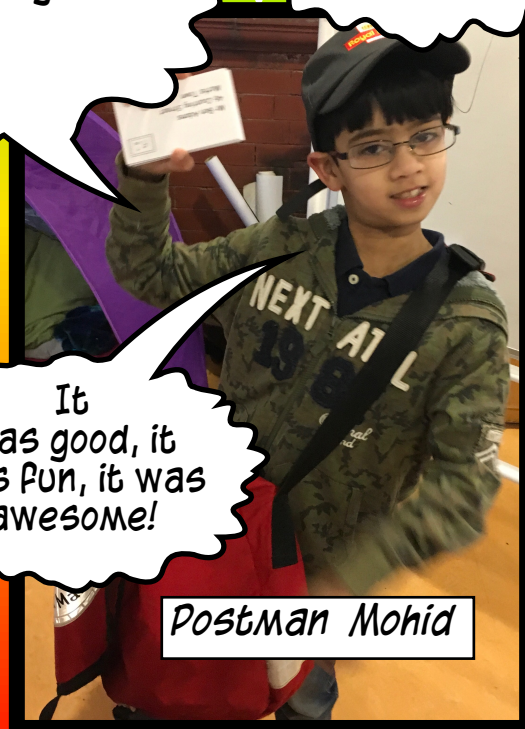

I loved it when we made up a rap "If I know  $1+9=10$  then  $10+90=100$ "

Postman Zinadeen

I loved the party. We used popcorn to make arrays and we used chocolate to find the difference. I used icing to split a biscuit into quarters.

It was good, it was fun, it was awesome!
