

2018 ANNUAL PTA QUIZ NIGHT

For those of you who have been to the quiz before, you all know it's a cracking night and usually very successful in terms of fundraising for the school. For those of you who haven't, please come along and have some fun! If you haven't got a team, don't worry, just rock up on the night and we'll find a team for you to join.

It's not University Challenge, the aim is fun and fundraising (but don't tell that to the serious quizzers)!

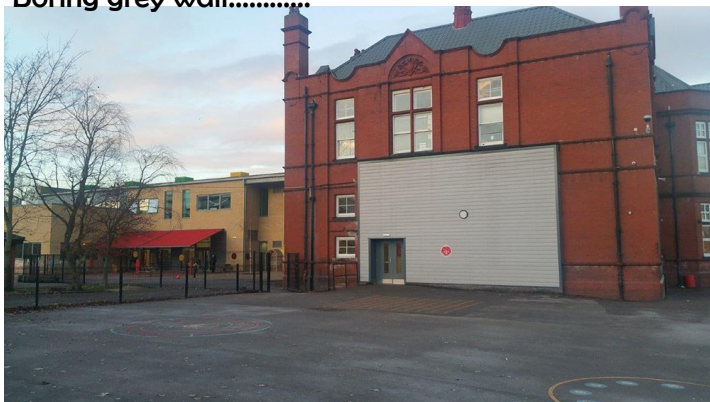

The PTA and the school leadership team are working together with an architect (one of the school's parents), who is looking holistically at the entire school grounds and generating a masterplan. The aim of this plan is to optimise every single bit of space we have on school property to provide the children, teachers, teaching assistants, lunchtime organisers, Owl Club and afterschool clubs with the best possible outside experience. We'd all love rolling green fields for playtime but the reality is that our school has substantial space limitations. That doesn't mean it can't be awesome by making the most of what we've got!

Once the school has approved the masterplan we will divide it into realistic phases, get costings and then commence work. The PTA will be fundraising almost entirely on outdoor space improvements for the next few years and we really need your support, as some initial costings are definitely worthy of a very sharp intake of breath!

If you can't attend the Quiz Night, or any other events, but you want to support the school improvements, you can make a donation on our Just Giving Page <https://www.justgiving.com/fors>. If you complete the tax relief form we can also claim Gift Aid.

The first phase that we have agreement on is to create an impactful mural on the grey building facia. The school will run a competition for the children to design it and then we have commissioned an artist to recreate their design. The area in question is shown below...

Boring grey wall.....

Future designer's great creation!
