

22nd March 2018

Dear Parents/Carers,

Year 4 Science Club

Next half term we will be running an after school science club for Year 4 for five weeks, beginning on Monday 16th April. The sessions will last for one hour each, finishing at 4.30pm, and will cover the following topics;

Week 1- What is Science? (A series of basic experiments and what we can learn from them)

Week 2- The Mighty Atom (Making models of the atom and understanding the basic structure)

Week 3- The Earth (Layers of the Earth, tectonic plates, volcano model)

Week 4- The Wonders of the Universe (Solar system model, What are stars? Why is the Sun so small in the sky? Size of the Universe)

Week 5- The Natural World (How did life arise on Earth? How did it spread and make so many varied forms?)

Your child is invited to attend these sessions, which are designed to stimulate their interest in the world of science. If you would like your child to attend, please complete the slip below and return it to school next week. Letters of confirmation will be sent out before Easter. In the event that this club is oversubscribed, a second set of club nights will be put on after the whit half term.

Kind regards,
Andy Wheeldon
Year 4 Teacher

Year 4 Science Club

Child's Name: _____ Class: _____
