October

School Reopens— Monday
29th October

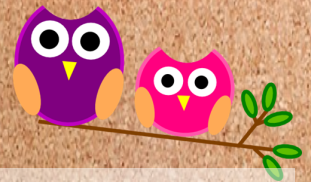

©2017

Our Book of The Week: The Rainbow Fish

Maths Focus: Shapes, learning their names and properties.

Literacy Focus: Story sequencing, discussion on the author and illustrator.

Announcements & Reminders

Tapestry permission slips: As you may know, we have decided to create electronic learning journeys for each child using a programme called Tapestry. We sent out a letter to parents / carers asking permission for us to upload you child / children's photos using this programme. If you have not already signed the required permission slip, please could this be done as soon as possible.

Family Photos: Our family board is beginning to fill up with beautiful family photographs, but we still need lots more. Please can you send in a photograph of your child with their family so we can add it to our board.

Leaving in the morning: It is very important that parents / carers leave promptly after the tambourine has been shaken as this is the beginning of our learning time and this enables us to make a quick and punctual start to the day. Thank you for your understanding.

Fortnightly Family Task

Autumn Walk:

As the clocks and seasons change, can you go for an autumn walk and collect some natural resources? What colours can you see? Are there any autumn animals along the way? Have a go at making a collage or an autumn picture using your collected items!

If you have any questions please speak to your child's keyworker.
