

Science - Materials

Would you live in a paper house?!

We will look at how different materials in our environment are better suited for different purposes.

Geography

We will be exploring a range of different castles and the features of them. We will be identifying different castles within the UK and using maps to find these. We will also be exploring physical and human features of castles and where they are suitable to build!

Computing

We will be putting our newly learned ICT skills into practice to create story books based on traditional tales on the iPads.

Religious Education

We will be looking at Special and sacred times for different people particularly focusing on Easter.

Music

Recording skills at the ready...we will be using a range of materials to make different sounds. We will also be exploring tuned and untuned instruments.

Where is the best place to build my castle?

Maths

Number: Place value to 20

We will continue to look at place value to 20 by comparing numbers and groups of objects, alongside ordering numbers forwards and backwards.

Number: Addition and subtraction to 20

We will be continuing to use the addition, minus and equals symbol to interpret mathematical statements up to 20.

Design and Technology

Teddy Houses

'I'll huff and I'll puff and I'll blow your house down!' On no you can't, because we will be using our knowledge of materials learnt in science to plan and make strong houses for our teddies!

Physical Education

Dance

We will be looking at castle themed dances and the different people who you may find in castles!

English

We will be exploring a range of fiction texts such as Puss in Boots and putting our story writing to the test!

We will also be looking to write instructions, so get your bossy verbs at the ready!

Enrichment and Trips

We are in the middle of finding something exciting to enrich our castles topic!

Parent/Carers reply slip. Please send in your suggestions and comments by returning this slip to your child's class teacher.
