

28th March 2019

Dear Parents/Carers,

Staircase Design Competition

Over the Easter holidays we will be having some renovation work done to the two staircases in the old side of the building. Once the building works have been completed we would love to make the staircases more visually appealing for our children and we would therefore like your help in designing some vinyl graphics to stick on the front of each step.

The theme of your designs should be based on times tables- we're looking for something that's both eye-catching and educational! We have included a couple of examples below to show the sort of thing we're looking for- can you come up with something even better? Remember, the staircases are used by children in lots of different year groups, so try to think of a design that can benefit and appeal to children of all ages!

Your design could be in the form of a drawing, a collage, or even just a written description of your ideas. The choice is yours! Please hand all entries into Mrs Linton in the school office no later than Friday 26th April.

Kind regards,

Ellie Linton
Communications & Marketing Manager
