

Oswald Road Primary School

Smoke Free Policy

Governing Body approved this policy on: March 2019

**Headteacher: Deborah Howard
Chair of Governors: Richard Price**

To be reviewed in a 2 years: March 2021

Responsibilities

Oswald Road Primary School regards itself as a health-promoting school. It recognises that its staff act as role models for pupils in all aspects of school life, including health promotion.

Second hand smoking - breathing in other people's smoke - has now been shown to cause lung cancer and heart disease in non-smokers, as well as many other illnesses and minor conditions.

Oswald Road Primary School acknowledges that breathing in other people's tobacco smoke is both a public health hazard and a welfare issue. It is also noted that electronic cigarettes (e-cigarettes) mimic the effects of real cigarettes. Experts say it is not yet known what harm the tobacco-free devices could inflict and that their contents could be damaging young people's health.

Rationale

- Smoking is the single most preventable cause of premature death and ill-health in our society.
- Passive smoking - breathing other people's tobacco smoke - is also potentially fatal. It has been shown to cause lung cancer, as well as many other illnesses, in non-smokers.
- Smoking is a health and safety issue for all adults who use the school: staff and parents.
- Everyone has a right to breathe clean air, and non-smokers are in the majority.
- Schools have a major role to play in working towards non-smoking being seen as the norm in society.
- Children need to receive consistent messages and require non-smoking role models within the school.

Objectives

- To protect non-smokers from the adverse health effects of environmental tobacco smoke and e-cigarette vapours in the workplace.
- To demonstrate the school's commitment to promoting the health of pupils and staff.
- To provide information and advice for those who wish to stop smoking.

Restrictions on smoking:
