

Science

Plants

How green fingered are you?

We will be exploring the world of plants and trying our hand at turning our outdoor space into a haven of plants and flowers.

Geography

Dust off your fossil brush and pack your T-Rex repellent, we are going dinosaur hunting!

On the way we'll be learning about the 7 continents and 5 oceans and comparing different localities.

Computing

We'll be exploring how to create a code for a programmable toy. We will use Beebots and the Kodable app on the iPads.

We will also be using ICT to research our country fact pages.

Religious Education

Special Places

We will look at what makes a place sacred, focussing on a church.

Music

Music and songs from around the world are what's in store this half term.

Where in the world would you find a dinosaur?

Maths

Now that we are confident counting in 2's, 5's and 10's, we are moving on to multiplication and division.

We will also be exploring fractions including $\frac{1}{2}$ and $\frac{1}{4}$.

Finally, we will be looking at direction and position.

English

We are going to sink our teeth into some awesome adventure stories this half term as well as using our new found dinosaur knowledge to write some information texts. We are going to have a big push on spelling this half term – making sure we are using our Phase 5 sounds in our writing.

Art

Henri Rousseau
"Walking through the jungle, what do you see?"

Our knowledge of plants will come in handy as we paint jungle scenes.

Article 31: Every child has the right to relax, play and take part in a wide range of cultural and artistic activities.

Physical Education

Gym

We will be putting together the work we have done on sequences and the large apparatus.

Games

Let's work as a team. We will be starting to develop our tactics in team games.

Enrichment and Trips

We can't quite afford a trip to Isla Nublar, but stay tuned for some further information about this half term's enrichment!
