

Science

Food and Food chains

We will be looking at the amazing world of food chains from plankton to sharks.

Geography

Our gorgeous geographers will name and locate all the world's oceans. They will explore life beneath the waves and answer the question: What mysteries exist under the sea?

Art & DT

Using their knowledge of materials, Year 2 will design and build a boat. Will they float or will they end up at the bottom of the ocean?

A topic inspired by the late great Walt Disney... Our awesome artists will create their very own 'under the sea' cartoons.

Music

Using the glockenspiels and xylophones Mrs Murray will be getting our budding musicians to create jingles using the pentatonic scale.

Maths

A measuring master class! Our Year 2 mathematicians will look at depth and capacity. They will also develop their position and direction skills and will captain their own ship!

What mysteries exist under the sea?

Year 2

Summer 1

RR 28— All children have a right to education.

Enrichment and Trips

Following all our hard work this half term we will be planning a trip to Longford Park with games and activities.

English

Our wonderful writers will write letters and diary entries about their make believe adventures and they will report on what they discover at the bottom of the deep, blue sea! We will also leave a special message in a bottle!

Religious Education

Year 2 will explore how and why we celebrate special and sacred times linked to Islam

Physical Education

Like last term, the children will be having outdoor games with the sports coaches in school. Please make sure they have their kits in school at all times!
