OSWALD ROAD  
PRIMARY SCHOOL

## Announcements & Event Reminders

### Super Learning Science Week

We will be celebrating science with all of the children in school during our Super Learning Science Week. This will consist of numerous practical science activities organised by the teachers, which are designed to be as fun, interactive and thought-provoking as possible. On Monday 14th October, the children are invited to dress up, if they wish, as either a scientist or someone who works using science - they are free to choose!

3JB are back in their lovely classroom—hooray!

Reading diaries must be signed at home before we can change books!

### TT Rockstars!

If you are lucky enough to own a computer at home with internet access and if you are happy for your child to use it, then please encourage them to practice their multiplications on TT rockstars. Your child should know their log-on details.

## English & Maths

We are writing some fabulous non-chronological reports, full of facts, information and historical and scientific language.

In maths we are continuing to develop our problem solving and reasoning skills using addition and subtraction.

### This week's spellings:

Your child has been provided with spelling homework linked to the words we have been learning in class. These spellings will be tested collaboratively each Friday.
