

## Science Habitats

We will be blocking our science topic after the Easter holidays. We will look forward to learning about habitats and what animals need to survive in different environments. We will also be searching for minibeasts!

## ICT

In ICT we will be using our time to practice our spellings, times tables and maths skills. In class we will use the iPad apps to make talking cartoons and green screen films.

## Geography

In Geography we will be learning about a selection of African countries through our English stories. We will develop our understanding of location through atlas work and compare and contrast them with the UK.

## Music

In Music we will be learning how to control and develop our singing voices as well as how to control instruments such as the Djembe.

## Maths

In maths we will be focusing on four main things this half term: fractions of shapes and quantities, measurements including the units ml/l, g/kg, cm/m, time - o'clock, half past, quarter to and past and position and direction.

Following on from this we will be solving real-life word problems and using our knowledge of number facts and operations to check our results.

# AFRICA YEAR 2 SPRING 2

RR 28– All children have a  
right to education.

We would love to have feedback about how we could make our topic more exciting and enjoyable. *If you have any ideas please add them to our topic web outside your child's classroom.*

## English

We are going to be reading stories (eg. Anna Hibiscus) that will support our Geography work on comparing and contrasting localities plus a variety of non-fiction texts. We will develop our descriptive writing and work on the use of suffixes and expanded noun phrases. We will continue to work on different punctuation and exciting ways to join our sentences.

## Art

In art we will be learning about symbols in African art work and we will be using this to inspire us to create our own 'Secret Symbol'. We will also be designing and making our own kente cloth as well as a collage.

## Enrichment and Trips

We will be taking part in the Easter Experience run by St Clement's Church.

## Religious Education

In RE we will be continuing our studies of Judaism through RE day.

## Physical Education

Like last term, the children will be having outdoor games with the sports coaches in school and gymnastics indoors with their teachers. Please make sure they have their kits!
