

23rd September 2015

Dear Parent / Carer

Year 3 Workshop: "It Came From Outer Space" Friday 16th October

As part of this term's topic, "Life on Mars", the children have an exciting opportunity to take part in a series of amazing workshops. They are designed to enable the children to learn about space-related objects such as meteorites, astronaut food, space shuttle and rocket construction materials.

Children will also be building and flying their own rockets and have the experience of seeing a real rocket on display in the school playground. To conclude the workshop, the children will have the thrilling experience of seeing a launch of a one-metre "Starchaser Rocket" which will fly hundreds of metres into the air and return to earth by parachute.

The workshop will be provided by Starchaser, a company providing enrichment and educational learning opportunities to schools in an exciting and safe way.

The workshops will take place on the morning of **Friday 16th October**. This will be a great event and to enable the workshop to take place we must request a contribution of **£5.00**. If we do not receive sufficient contributions, the visit may have to be cancelled. If your child is eligible for Pupil Premium, you are entitled to the workshop being funded by school. Please return the completed slip, below, with the correct amount of money in an envelope labelled "Starchaser", together with your child's name and class, and hand in to the school office by **Friday 9th October 2015**.

Kind regards

Satnam Singh, Leanne Eldridge, Sharon Griffin & Channi Davis.
Year 3 Class Teachers

Year 3 Workshop: "It Came From Outer Space"

Child's Name: _____ **Class:** _____

I would like my child to take part in the Starchaser Workshop
I enclose a £5.00 contribution towards the cost.
