

# Open doors @ Manchester Art Gallery

Mosely St 9.15 - 10.45am Free

## Saturday 16th July.

We will be looking at our new fashion-focused exhibition, *Vogue100*, it's an exciting space with lots of large images, colour and a video area with moving images and music. Please bring ear defenders with you, though some might be available.

Open Doors is a series of creative activities especially for children who have autism and other social communication issues, their families and carers. Come along to enjoy and explore art together. Themes are different each month, with a focus on tactile and sensory materials and the creative ways they can be used in response to our exhibitions.

Open Doors sessions take place before the gallery opens to the general public and there'll be a quiet room available too.

Sessions are free, no need to book. Suitable for children and young people aged 5-16 with a parent or carer. Please come to the front entrance of the gallery on Mosley Street.
