

"Mrs Woolf (SENCo) has taken on professional training to further understand our son's needs, which is hugely reassuring to us."

"I feel that the SEND team cater for my child's specific needs, and as a result he has shown a visible change and improvement over the past few months. He is measurably happier in school, and I think that this is down to the SEND team working in conjunction with the pastoral team which has really made a difference."

"The school definitely works well with outside agencies to support SEND children. In all of my communications with the SEND team they have been very supportive."

SEND Parent Voice

"The SEND team are very approachable, and I feel that as a parent I have a very good working relationship with them. They are very action-focussed and I think that makes all the difference... their expertise really stands out. The work the SEND team do around autism is evident across the school."

"The SEND team are very knowledgeable about ASC (Autism Spectrum Condition) and the referral process. My child is well supported - he has an IEP (the teacher and I have regular meetings about his targets), he is in intervention groups and has planned activities during lunchtimes."

"I am delighted with the progress that my daughter has made this year, thanks to the provision and support she gets at Oswald Road – some of the things she has achieved this year have been beyond my wildest dreams. It is a testament to the hard work of the SEND team and their firmly held belief that special needs children can thrive in a mainstream school with the correct provision."
