

WRITING LINKS

We will be using our amazing Literacy skills and applying these to a variety of writing and drama activities including:

- newspaper reports
- non-chronological reports
- role play/news reporter
- disaster stories

GEOGRAPHY/HISTORY

Get ready for a rollercoaster of a ride through different natural disasters! From Tsunamis to Earthquakes and Volcanoes to Hurricanes, we will cover it all!

What causes these disasters and how do people survive them?

Does where we live increase our chances of a natural disaster occurring?

Why do people choose to live in these dangerous hot spots?

If we're lucky, we will be visited by some scientists who can help up with our work!

ART /DT

We will be recreating some natural disasters. Get ready to create your own volcano and an earthquake-proof structure! Can you make a house that would survive a flood?

OTHER SUBJECTS

PSHE: Relationships and drugs education.

Science: Electricity.

MATHS IN TOPIC

Brush up on your measuring skills! You will need to ensure you have the correct amount of resources to make your own volcano! Plus, we will be looking at some statistics about natural disasters around the world to answer some key questions!

We will also learn to read scales that are used to measure the impact of a natural disaster.

RIGHTS AND RESPONSIBILITIES

Our work this half term will link to Article 27 from UNICEF's Rights of the Child. It states that children have the right to a good standard of living.

We would love to hear from parents and carers about our new topic – if you have any ideas please return them on the slip provided!
