

## GEOGRAPHY

Our gorgeous geographers will name and locate all the world's oceans. They will explore life beneath the waves and answer the question: Who lives under the sea?

## RE

Year 2 will explore the theme of 'water' through the world's religions.

## ART

A topic inspired by the late great Walt Disney... Our awesome artists will create their very own 'under the sea' cartoons.

## MATHS

A measuring master class! Our Y2 mathematicians will look at depth and capacity. They will also develop their position and direction skills and will captain their own ship!

## SCIENCE

Using all of their fantastic knowledge of habitats and life-cycles, the children will explore what lies beneath!

## DT

Using their knowledge of materials, Y2 will design and build a boat. Will they float or will they end up at the bottom of the ocean?

## LITERACY

Our wonderful writers will write letters and diary entries about their adventures and they will report on what they discover at the bottom of the deep, blue sea! We will also leave a special message in a bottle!

## PE

Using their position and direction skills, the children will play team games. 'Captain's Coming' will help our ship mates warm up!

## PSHE

The children will consider the importance of water around the world. This includes looking at Article 24.

## PARENTS/CARERS

As always, if you have any fab ideas that you would like to share with us, please fill in and return the attached slip.

# UNDER THE SEA
