

## **Science** **Life Cycles**

Using all of their fantastic knowledge of habitats and life-cycles, the children will explore what lies beneath!

## **Geography**

Our gorgeous geographers will name and locate all the world's oceans. They will explore life beneath the waves and answer the question: Who lives under the sea?

## **Art & DT**

Using their knowledge of materials, Year 2 will design and build a boat. Will they float or will they end up at the bottom of the ocean?

A topic inspired by the late great Walt Disney... Our awesome artists will create their very own 'under the sea' cartoons.

## **Music**

Using the glockenspiels and xylophones Mrs Murray will be getting our budding musicians to create jingles using the pentatonic scale.

## **Maths**

A measuring master class! Our Year 2 mathematicians will look at depth and capacity. They will also develop their position and direction skills and will captain their own ship!

### **Maths in real life contexts:**

Capacity – make a magical cocktail drink for Ariel.

# **Under The Sea**

**RR 28— All children have a right to education.**

As always, if you have any fab ideas that you would like to share with us, please fill in and return the attached slip.

### **Enrichment and Trips**

We are working on it. Watch this space....!

## **English**

Our wonderful writers will write letters and diary entries about their adventures and they will report on what they discover at the bottom of the deep blue sea! We will also leave a special message in a bottle!

## **Religious Education**

Year 2 will explore the theme of 'water' through the world's religions.

## **Physical Education**

Like last term, the children will be having outdoor games with the sports coaches in school. Please make sure they have their kits!
