

History

As historians, Year 6 will be delving into the depths of the Mayan Empire. We will be exploring how the Mayan people lived, what they believed in and how they compare to other ancient civilisations.

Geography

We're off to Central America! Year 6 will be exploring the modern countries that the ancient Mayan civilisation covered and thinking about the challenges that the Mayans faced .

Science

This half term, Year 6 will be learning about animals, including humans.

From the human anatomy to the wonderful world of the animal kingdom. Year 6 will be learning it all!

PE

The Mayan's invented football... but, unlike our historical friends we won't be using severed heads!

Hooks

We will be getting out our Mayan weapons and going to war. Don't worry, there will be no violence, it will all be through the form of dance!

Magnificent Mayans

Writing

If you didn't get away this summer, don't worry... Year 6 will be writing some highly persuasive holiday brochures to tempt you into booking a winter break in Chichen Itza.

RE

Like many other ancient civilizations, the Mayans believed in a range of different Gods and Goddesses. We will be investigating these beliefs and comparing them to modern faiths.

Art

The Mayan's prided themselves on their headwear, so Year 6 will be creating their very own fabulous tribal head dresses as well as exploring technical drawing through the study of Mayan pyramids..

Maths

Year 6 will be travelling to Central America to solve the riddle of the Mayan number system. We will then apply our knowledge to real life problems.
