

## Geography

Have you ever wondered where your food comes from and how it is produced? Or what the day in the life of a Fair-trade coca bean would be like? We are going to be researching this and developing our map reading skills too.

## Science

What has wings, six legs, three body parts and antennae? How would you classify a duck-billed platypus? We will be finding out all this and more during our topic about the classification of living things. As well as this, we will explore our school grounds and Chorlton Ees to find out more about the living things around us. Watch out David Attenborough-Year 6 are after your job...

## DT

To prepare for our Enterprise Day, we will be researching, designing and making GENUINE Fair-trade products!

## History

Have you ever heard of The Rochdale Pioneers? We will be following their enterprising example by setting up our own co-operatives!

## Trips/Events

Year 6 will need some first hand experience of how to run a business so we will be visited by a successful local co-operative. Yep, you've guessed it; it's the one and only Unicorn Grocery!! Another exciting upcoming event is our Enterprise Day! We will be selling a range of Fairtrade products and raising money for a local charity (to be confirmed).

# *The Chorlton Pioneers*

## Gym

A magical mystery tour of our spectacular gym equipment...

### Other subject areas:

**English-** Roald Dahl 'Boy' and Anne Frank's diary.

**Maths-** Place value, mental methods and written methods.

**RE-**Moral Maze

**Outdoor Games-**Tag rugby

## Writing links

We will be working hard to promote our Enterprise Day by creating posters, adverts and leaflets-all aimed at persuading YOU to spend money! As well as this, we will be writing our own business mission statements and recounting the epic story of a Fair-trade worker...
