

Science - Materials

Would you live in a paper house?!

We will look at how different materials in our environment are better suited for different purposes.

Article 29: Every child should be encouraged to respect the environment.

Geography

Our City/Our country

We will be expanding on last term's topic of the local environment by looking at the city of Manchester and its place in the UK. Links to Maths will include map reading and coordinates.

Computing

We will be putting our newly learned ICT skills into practice to create story books based on traditional tales.

Religious Education Stories

We will enjoy stories from different religions. Do you know any you can share with us?

Music

Recording skills at the ready...we will be using a range of materials to make different sounds. We will also be exploring tuned and untuned instruments.

Maths

We will carry on reading and comparing numbers under 100. We will learn about shape, measures and time. We will also be looking at the value of different denominations of coins and notes.

English

Once upon a time, there were 3 classes of Year 1 children. They all learnt about the features of fairy tales. They tried really hard with their sentences and they all wrote happily ever after!

Design and Technology

Teddy Houses

'I'll huff and I'll puff and I'll blow your house down!' Oh no you won't because we will be using our knowledge of materials learnt in science to plan and make strong houses for our teddies!

Physical Education

Gym

Move over Louis Smith! We will be putting our moves into sequences.

Dance

Do-Si-Do...Let's explore the routines of country dancing!

Enrichment and Trips

We will be catching the tram and taking a tour of Manchester!
