

## Science

Materials

*What would you use this for?*

We will be continuing our exploration of materials and their properties and trying our hand at the odd experiment.

How long will this weather last? We will continue to look at seasonal changes as they happen.

## History

LS Lowry

We will be learning all about LS Lowry and finding out what did inspire those matchstick men and matchstick cats and dogs.

Our maths through topic will be investigations using matchsticks.

## Computing

We will be learning how to keep safe while using the world wide web. We will become experts on E-Safety and learn how to use the internet responsibly.

Article 17: Every child has the right to reliable information from the media and should be protected from materials which could harm them.

## Religious Education

Special People

We will look at special people in different religions.

## Music

We know the children can be dynamic but what will they make of our work around pitch?

## Maths

Gosh we're busy!

Our focuses are: counting and money, mass/weight, multiplication and division and position and directions.

Phew!

## English

Have you ever wondered...? How can we find out....? What will happen if....? When was...?

We will be reading and writing non-fiction texts, so be prepared for some super facts! We will also be recounting some of our favourite moments of the half term.

## Art

Lowry

*"And he painted..."*

We will be trying to recreate some of those famous paintings we know so well.

## Physical Education

Gym

It's time to explore more body movements using a range of apparatus.

Dance

We are going to be dancing the country way this half term!

## Enrichment and Trips

A trip is being organised at this very minute to, you guessed it... The Lowry!
