To you - a prospective foster carer,

For 150 years, Barnardo's has been supporting the UK's most vulnerable children and our Fostering Service forms an integral part of our work.

Many of the children we work with need a safe, stable and loving home that enables them to develop into happy adults. We're looking for foster carers committed to giving children the life they deserve. Barnardo's places children with a wide range of needs.

We're particularly interested in foster carers who can look after:

- Children older than four
- Brothers and sisters who need to stay together
- Black, minority ethnic and dual heritage children
- Children with learning difficulties
- Disabled children
- Children with emotional or behavioural needs.

If you have thought about becoming a foster carer and would like to join an experienced, highly respected and effective team, then please contact us. You can change a child's life for the better by fostering and with Barnardo's support; you don't have to do it alone.

To make your first step in changing a child's life:

Telephone us on: 0151 488 0822

Or visit: www.barnardos.org.uk/fostering

For more information, or to book an initial visit and start your foster carer application please do not hesitate to contact us today.
