

## Science

How long will this weather last? We will continue to look at seasonal changes as they happen.

## History

LS Lowry

We will be learning all about LS Lowry and finding out what did inspire those matchstick men and matchstick cats and dogs.

**Our maths through topic will be investigations using matchsticks.**

## Computing

We will be learning how to search for amazing facts on the World Wide Web. We will be using our knowledge of e-Safety to use the internet responsibly.

**Article 17: Every child has the right to reliable information from the media and should be protected from materials which could harm them.**

## Religious Education

Who is a Christian?

We will look at features of the Christian faith.

## Music

We know the children can be dynamic, but what will they make of our work around pitch?

## Maths

Our focuses are counting in 2s, 5s and 10s, and capacity, weight and length. We will be measuring, comparing and solving problems.

**Maths in Real life Context: There are lots of opportunities for measuring. You could try cooking something or measuring your family.**

## English

Instruction Writing

We will be focusing on non-fiction texts and learning how to write instructions.

We will also be reading some stories with familiar settings.

## Art

Lowry

*"And he painted..."*

**We will be trying to recreate some of those famous paintings we know so well.**

## Physical Education

Gym

It's time to explore more body movements using a range of apparatus.

**Dance**

We are going to be continuing dancing the country way this half term!

## Enrichment and Trips

A trip is being organised at this very minute to, you guessed it... The Lowry!

**Parent/carer feedback or comments:**
