

Science

The human body and senses

We will be learning all about our bodies and testing our senses to the limit with lots of fun and exciting experiments.

Geography

Our Geography

We will begin by exploring our new school environment and then expand to look at Chorlton and all it has to offer. We will use what we have learnt to answer our topic question.

Computing

We will be making ourselves comfortable in the ICT suite and becoming familiar with the parts of a computer, developing mouse control and learning how to navigate a desktop.

Religious Education

We have an RE day once a half term. We will be looking at ourselves and celebrating what makes us special as individuals.

Music

The fabulous Mrs Murray will be teaching us how to make music using our bodies – exploring pulse and rhythm!

Year 1: Autumn 1

Is Chorlton a good place to live?

Maths

We will be spending this half term working on place value to 20, including number bonds and addition and subtraction.

Our maths lessons are very practical and interactive.

English

We will be learning to write super sentences with capital letters, full stops and finger spaces. We will be reading our work back to make sure it makes sense.

We will be reading a variety of fiction books including 'Funny Bones and Owl Babies'

Art

Our focus will be on self portraits. As well as exploring the shapes, proportions and colour of our faces, we will look at the work of Arcimboldo and have fun with vegetables!

Physical Education

Gym

We will be learning how to safely use the equipment in the hall.

Outdoor games

We will be practicing our ball skills and learning why exercise is important.

Enrichment and Trips

We will be going on a tour of our local area.

We will also be visiting Eureka! More details to follow.

Parent/Carers reply slip. Please send in your suggestions and comments by returning this slip to your child's class teacher.
