

### Science

#### Animals Including Humans

In science we will be learning about lifecycles. Have you ever wondered about 'the cycle of life'?

### Computing

The internet is a great resource for us to enrich our learning, but always remember to stay safe online!

### Geography

#### Wolves & Woodlands

We will be learning all about wolves and their habitat. We will be studying how wolves are unique animals and then we will write a report with all the facts that we have learned. We will also be learning about woodlands by using our map and compass skills.

### Art

Have you noticed how leaves change with the seasons? We will be using our observation skills to create leaf collages and paintings.

### Music

In music we will be learning how to control and develop our singing voices.

### Maths

This half term we will be exploring number. This will include recognising place value in numbers, knowing our number bonds to 10 and using this to find other number related facts. We will be halving and doubling numbers to at least 20 as well as reading and writing 2 and 3 digit numbers in figures and words. Finally, we will use knowledge of number to solve problems.

### English and Drama

We will be reading and writing information texts about wolves and using what we have learnt in drama to enhance this. We will be describing settings and characters for a story. We are also going to read and write stories about fictional wolves. We will be learning about adjectives and adverbs and how to use these. We will be extending our sentences using exciting choices of words and conjunctions. We will be working on using full stops and capital letters confidently in our writing. 'Big Writes' and 'Cold Writes' will be written, accompanied by calming music.

## What will we find lurking in the woods today?

*We would love to have feedback about how we could make our topic more exciting and enjoyable. If you have any ideas please return on the slip provided.*

### Enrichment and Trips

We will be visiting Chorlton Ees Nature Reserve to experience a real life wood setting. We will sketch what we see and think about how this environment makes us feel.

### Religious Education

#### Myself

In RE we will be learning about people and events that are important to us. We will be sharing ideas and learning to respect each other's beliefs and values.

### Physical Education

#### Games

We will be playing and inventing simple team and invasion games.

#### Gym

We will be focusing on how to use the equipment effectively and safely.
