

DT

We will be linking with our maths and creating a Viking long ship.

Maths

We will be using our maths and decoding skills to answer and create word problems using Viking runes. We will also be mastering the art of statistics

Outdoor Games

The theme of invading and raiding will be continuing into our outdoor games lessons as we learn to play netball and basketball.

Science

One thing the Vikings needed was a lot of force. We will be looking at different types of forces they would have used.

Hooks

Visit to Tatton Park to explore the battle between the Vikings and the Anglo Saxons (TBC)

Writing

Norse myths and legends will be our focus this half term. We will be writing our own Viking Saga, creation myth and a set of instructions for a Viking-style game!

History

We will be exploring the following questions: Who were the Vikings? What was life like as a Viking? How and why did Vikings invade and settle overseas? How do reasons for immigration then and now compare? Why do people migrate to Britain – is it for the same reasons now as it was then?

UNICEF Rights Links

We will be comparing current immigration to that of the Viking age. We will be linking this to our UNICEF Human Rights work, in particular Article 13: Freedom of movement in your own country and the right to leave and return to any countries.

PSHE

We will be developing crucial social skills and learning how to respect each other's rights to their own opinion in our 'Celebrating Differences' module.

How has immigration changed since the Viking Age?
