## Computing Home Learning Project – Online Safety

For Computing, we would like you to focus on staying safe online.

These activities are intended to provide you with support and resources to help you learn about online safety at home with your child.

### **Parents and Carers Help sheets:**

Start by reading the Parents and Carers Help sheet:

<https://tinyurl.com/t8trksh>

This contains key online safety advice and links to more resources, as well as support services.

### **Home activity packs:**

Once you have read the Help sheet, click on the age-appropriate link below to download the first home activity packs.

Each pack contains activities to complete.

Remember to post work onto Seesaw or send it to your child's class teacher via [admin@oswaldroad.manchester.sch.uk](mailto:admin@oswaldroad.manchester.sch.uk)
