

Find It

This game is to help your child identify similarities and differences between words. This is an important skill for vocabulary building.

To play this game you will need the 'find it category cards' attached.

Cut out the cards and place them face down, spread out, in front of the players. The first player turns over two pictures. He or she has to think of a way of grouping those two pictures based on similarities.

The similarities can be based on **category**, **use** or **feature**,

e.g. The apple and the orange are both fruit (category).

The saw and the knife are used to cut (use).

The table and the elephant both have four legs (feature).

If he or she can group the two pictures, the cards are kept. If he or she cannot think of a way to group them, the cards are turned back over and play passes to the next player. At the end of the game the player with the most pairs of cards is the winner.

Variations

To make this game easier place the cards face up and choose basic categories e.g. places, furniture etc.

To make this game harder use more cards and encourage your child to think of **two** different ways to group cards.
