

26th April 2022

Dear Parents/Carers,

Year 4 Science Day – Monday 16th May 2022

This half term, we will be holding a day of science activities for the children on Monday 16th May. This will involve a carousel of investigations and other work centred around the science we have focused on in class this year.

To bring the science to life, we have engaged the services of Safari Phil, who will be showing various species of invertebrate to the children as he talks about their body forms and methods of classification.

In order to provide this fantastic opportunity for the children to get up close and personal with the animals, we are asking for a voluntary contribution of £4 to cover Safari Phil's fees, payable in the usual manner via ParentPay.

Thanks once again for your support. We will advise you further in early course about our end of year trip, which will also be science related.

Many thanks,

Mr Wheeldon (Year 4 Teacher)

Inspiration & Success
